#### **Project: Grantee Data Technical Assistance (GDTA) Training Needs Assessment Survey for SAMHSA Grantees-NEW**

In 2014, the Center for Behavioral Health Statistics and Quality (CBHSQ) funded the GDTA contract to provide training and technical assistance to all grantees receiving funding from the Center for Substance Abuse Treatment (CSAT), the Center for Mental Health Services (CMHS), and some grantees receiving funding from the Center for Substance Abuse Prevention (CSAP) that fall under the GDTA contract. This currently only includes discretionary grants but is expected to include block grants in future years. Training and technical assistance from the GDTA contract will focus on helping grantees use their Government and Performance Results Act of 1993 (GPRA) data for performance management and monitoring, and services improvement. The information being collected in this needs assessment will inform CBHSQ

regarding the types of activities SAMHSA’s grants use their funding for and what types of training activities they would like to receive in the future.

**Description of Forms:** Forms will include two questions. The first question asks about the services provided under the grant. Answer options include activities such as behavioral health care services, screening, prevention activities, and services to specific populations. The second question asks respondents to identify topics for training and technical assistance they would like to receive from a pre-populated list. Answer options include items such as data collection, data entry, and using data in creative ways. Both questions have an option for respondents to write-in an answer that is not included in the list.

**Description of Respondents:** The respondent universe for this data collection effort is one Project Director from each SAMHSA-funded grants being served by the GDTA contract. This currently only includes discretionary grants but is expected to include block grants in future years. There are currently 2,670 SAMHSA-funded discretionary grants served by the GDTA contract, therefore this is the number of respondents expected for this data collection effort.

Form Name	Number of Respondents	Annual Responses per Respondent	Total Annual Responses	Hours per Response	Total Annual Hour Burden
Grantee Needs Assessment	2,670	1	2,670	0.1	267
